

THE AU PAIR PROGRAMME IN SPAIN

The Au pair program is an intercultural exchange in a foreign country. You will live in and be welcomed as a family member. In exchange you will help with light household duties and child care.

Consequently, Au pair candidates should be responsible, trustworthy young adults (both male and female Au pairs are welcome in Spain). The Au pair will receive full room and board as well as a weekly stipend.

You will be on your own schedule with daily free time to spend with friends, attend Spanish classes or even time to make small trips to discover Spain.

It is a full immersion program. From the day you arrive you will be exposed to Spanish language and custom at the ground level, and you will not have to worry about living expenses.

The duration of your stay depends entirely on you. Most Spanish families request an au pair for 1 to 3 months in the summer. On the other hand, 6, 9 or 12 month stays are in demand during the school year. If your native language is English or you are fluent, you will also have opportunities to be placed for shorter periods.

MATCHING PROCESS

We match Au Pair preferences with family applications. You are freedom to select the family of your choice. We never impose a family on you.

Once your application is fulfilled, we will contact you to clarify doubts and we will begin to select host families candidates matching your profile and requests.

We will send you all families who show interest in talking to you and we will arrange an interview with those you want. We call this the matching process.

After the interview, if you both agree on the matching, you will have to organize your trip to Spain. We will help you in case you have to get a visa as an aupair for Spain and to get in contact with your Spanish school.

Since you arrive you will have assistance during all your stay and we will provide you with the contact details of other aupairs in Spain.
